Title: Water Insecurity and Urban Development
in Cape Town

Source: UL Team / Practice Brief

Resources/product name (title): Water Insecurity and Urban Development in Cape Town: Adapting water services for future resilience (2018)

Description: The practice brief describes the case of the 2017/2018 Cape Town water crisis and the conditions of water insecurity, which should propel a move towards more sustainable water resources. The practice brief also explores the principles of good water governance and suggests the water service sector can incorporate these principles in to a framework to support future resilience.

Type: Practice brief

Practice area: Urban land

Keywords (filters): Informal settlement upgrading, community of practice, water crisis, good water governance, resilience, participation, Khayaletu Initiative, partnership
